

Niyonkuru Jonas

1325 Alviso St, Santa Clara, CA | +1-520-402-7447 | njonas@scu.edu

Professional Summary

Software Engineer skilled in Python, C, JavaScript, and SQL, with experience optimizing data workflows, improving system navigation, and delivering KPI-driven insights. Proven ability to collaborate with cross-functional teams to enhance performance and user experience.

Education

Santa Clara University

Sep 2023 - Jun 2027

Bachelor of Science, Computer Science and Engineering, Minor in Mathematics

- **Achievements:** Koret Fellowship, Thomas J. Bannan Award, LEAD Scholar
- **Coursework:** Discrete Mathematics, Calculus 1-4, Embedded Systems, Logic Design, Probability And Statistics, Physics 1-3, Data Structures And Algorithms, Advanced Programming, Cryptography, Eletrical Circuits, Object Oriented Programming

Skills

- Python, C, JavaScript, HTML, CSS, SQL, React, Django, ARM Assembly, Verilog, Linux, Visual Studios, Arduino, MATLAB, Google Cloud Platform, Web APIs, Rest APIs, DynamoDB

Experience

Excite Credit Union | Software Engineer and Finance Intern

Jun 2025 - Aug 2025

- Ran and optimized **SQL** queries with the **CFO**, delivering actionable insights for financial planning while reducing data retrieval time by **30%**
- Produced accurate KPI and loan performance reports that guided strategic decisions, resulting in better financial forecasting and more efficient resource allocation.
- Collaborated with the software development and IT team to improve system navigation and enhance the website, helping reduce client wait times and streamline user experience

Elite Lending Group | Finance Intern

Aug 2024 - Sep 2024

- Processed 20+ mortgage qualification documents, verifying financial information with attention to detail
- Conducted outreach to 100+ clients, increasing loan application completion rates through personalized interactions
- Planned a 30-day social media content calendar, increasing engagement by **15%** through strategic and well-timed content

Projects

Med-Clear | AWS Hackathon

- Built a platform that automates healthcare **pre-authorization**, using **Amazon Bedrock** to parse insurance policies and review patient records against coverage requirements.
- Integrated **Amazon S3** for secure storage and developed a **React frontend** for providers to generate and track insurer-ready packets in real time.
- Applied **RAG pipelines and document parsing** to reduce provider workload from hours to minutes, accelerating patient care approvals.

Automatic Trash Can

- Programmed and constructed an automatic trash can using **C++** in the Arduino IDE interface, utilizing ultrasonic sensors, servo motors, and various other recycled materials to detect levels of trash and automatically dump contents after reaching a designated capacity
- Achieved **90%** detection accuracy for trash level and reliable dump feature with low energy requirements of one 9V battery

PickUp

- Collaborating with lead **Microsoft** software engineers to build a cross-platform mobile app for discovering local pickup sports games
- Integrating geolocation, interactive maps, and push notifications for live game tracking and alerts

Extracurricular

Different Culture Clothing | Product Manager

Jun 2022 - Present

- Owned the end-to-end **product roadmap**, launching and scaling **1,000+ units** while driving **25% YoY growth** in revenue and user engagement
- Partnered cross-functionally with suppliers, marketers, and designers to deliver **go-to-market** strategies, strengthen brand positioning, and grow community loyalty
- Applied data-driven insights to prioritize features, refine offerings, and improve conversion rates

National Society of Black Engineers | Vice President

May 2024 - Present

- Served as a board member of the NSBE SCU chapter, enhancing resource accessibility for **200+** engineering students by collaborating with faculty and department chairs
- Led an outreach event for over **100** high school students during Engineering Week (EWeek), increasing their interest in technical fields through interactive workshops and presentations
